Integrated Process Control

Welcome to TopWorx!

We Build Little Things

That Make a Big Difference.

GO[®]
SWITCH
Leverless Limit Switches

Leverless Limit Switches
For Harsh Environments

GO Switch ***Built to Last***

Rugged, Durable, Dependable. For nearly 50 years, GO Switch Leverless Limit Switches have been built to last in extreme conditions – no matter how hazardous, wet, corrosive or abusive. GO Switches require no power supply and have no arms or levers to break or jam. To eliminate wear and tear, choose GO Switch.

**Other TopWorx
Products Include:**

*Digital Valve
Communication*

SWITCHPAK
Valve Position Monitors

LP²
*Low Power - Low Profile
Solenoid Technology*

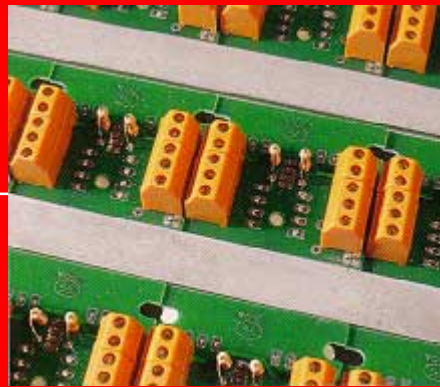

Welcome to TopWorx! We Build Little Things That Make a Big Difference.

Lumitech
Bright Ideas In Valve Control

Intergrated Valve Controllers

Direct Mount Position Monitors

Lighted Linear Position Sensors

Lumitech Direct Mounting...Direct Savings

Designed to save time, space and money, Lumitech is a technological breakthrough in valve control and monitoring. With low profile valve control products that mount directly to any ISO/ NAMUR actuator, Lumitech brings considerable economic benefits to your company, both in initial cost savings and installation cost reductions.

**Other TopWorx
Products Include:**

NetWorx
*Digital Valve
Communication*

SWITCHPAK
Valve Position Monitors

LP²
*Low Power - Low Profile
Solenoid Technology*

Welcome to TopWorx! **We Build Little Things** **That Make a Big Difference.**

STATUS
Valve Performance Solutions

Valve Performance Diagnostics

Fugitive Emissions Monitoring

Digital Data Acquisition

Status **In Touch With Valve Performance**

Status offers a Severe Service Valve fugitive emissions monitor, a local smart tag with critical maintenance history, and an ISA 20.50 Control Valve Data Sheet. All information is accessed at the touch of a “wand” that connects to a serial port and operates on a Windows-based system.

To increase valve performance, combine Status with a Lumitech Digital Valve Controller.

**Other TopWorx
Products Include:**

NetWorx
Digital Valve
Communication

SWITCHPAK
Valve Position Monitors

LP²
Low Power - Low Profile
Solenoid Technology

Our Purpose is Clear...

At TopWorx, we build little things that make a big difference. From Leverless Limit Switches to Integrated Valve Controllers to Valve Performance Solutions, it's been that way since C.R. Marcum founded the company in 1950 and remains that way today as third-generation president Charlie Marcum leads the way.

We believe that if Customers identify with our Core Valves they will be more likely to recognize the value of our products. So here's an inside look at what we value, and offer as a company.

People

Our Sales & Service Team

"Take away my people but leave my factories and soon grass will grow on the factory floor. Take away my factories but leave my people and soon we will have a new and better factory."
- Andrew Carnegie

At TopWorx, **it all begins with our people**. We treat our Employees like family. As a result, they treat you, our Customer, the very same way.

Performance

"To give real service you must add something which cannot be bought or measured with money, and that is sincerity and integrity."

- W. J. Johnston

At TopWorx, **we do what we say we will do**. That is the hallmark of integrity, and the foundation of our business.

OUR CORE VALUES

Respect for the Individual
Do what is best for the Whole while appreciating the uniqueness of every Individual.

Respect for the Customer
Put Principle before policy to exceed Customer and Distributor expectations.

Respect for the Company
In all decisions, make the choice that is in the long-term best interest of the Company.

Products

"The speed of the leader determines the rate of the pack."

- D. Wayne Lukas

At TopWorx, **we're accelerating the pace of innovation** – not just for ourselves, but for our industry. Our Engineers are breaking the

barriers of conventional design and rapidly redefining our industry along the way.

Our Engineering Team

Quality

"Good enough never is."

- Debbi Fields

From day one, C.R. Marcum hand-checked products himself for quality. Today, we continue to **100% test each unit** before it's released to the field. With global approvals and a quality program conforming to ISO 9001 Standards, rest assured the products you receive are always of unparalleled quality.

"If you don't have time to do it right the first time, when will you have time to do it over again?"

- Anonymous

In today's automated process world, downtime is not simply an irritant, it's unacceptable. So, when you're depending on "accessory items" to control your plant process, why take a chance? Choose proven process control products from TopWorx...and do it right the first time.

To Our Customers and Distributors

Thank you for helping us get where we are today.
We look forward to reaching new heights in the future.... together.
